This Learning Agreement is an individualised document, which sets out the conditions for the PILOT TRAINING period. It specifies, for a particular learner, which learning outcomes and units should be achieved together with the associated ECVET points. The learning agreement also lays down the assessment process and methods and inform learner about the "National Institution" entitled to validate and recognize the LOs achieved as part of the requirements for a qualification. The learning agreement should then contain information on the identity of the learner, the duration of the pilot period, information on the learning outcomes to be achieved by the learner and the associated ECVET points. The Learning Outcomes by Units is attached
